PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 6+ years of experience building scalable cloud microservices in Python (FastAPI/Flask), robust PostgreSQL database architectures, and reactive React applications.

TECHNICAL SKILLS

Proficiencies: Python, FastAPI, Flask, Django, PostgreSQL, Redis, Docker, Kubernetes, AWS, REST APIs, React, TypeScript, Pytest, CI/CD, Git, System Design

WORK EXPERIENCE

Lead Software Engineer • Nexus Cloud Systems (2021 - Present)
• Designed and maintained high-throughput REST APIs in Python FastAPI backed by PostgreSQL and Redis.
• Orchestrated Docker containers and deployed automated Kubernetes pipelines on AWS.
• Mentored 5 junior developers and conducted architecture reviews.

Backend Developer • Apex Fintech (2018 - 2021)
• Developed Python Flask microservices and integrated third-party banking REST APIs.
• Implemented comprehensive unit test suites with pytest achieving 95% code coverage.

EDUCATION

Bachelor of Science in Computer Science • University of California, Berkeley (2018)

KEY PROJECTS

Real-time Order Matching Engine - High-frequency transaction service built in Python, Redis, and React.

CERTIFICATIONS

• AWS Certified Solutions Architect
• Certified Kubernetes Application Developer
